

# **Bandit Level 5 → Level 6**

## **Level Goal**

The password for the next level is stored in a file somewhere under the inhere directory and has all of the following properties:

- human-readable
- 1033 bytes in size
- not executable

## **Command may be needed**

- ls : list file in dir.
- cd : change dir.
- cat : read a file.
- file : type of file.
- du : size of dir/file.
- find : find file in dir.

## **Approach**

I logged in using ssh with password from bandit 4

```
ssh bandit5@bandit.labs.overthewire.org -p 2220
```

in level goal it is said the password is a file in the dir "inhere"

so I changed dir.

```
cd inhere
```

I search with the given details

```
find . -readable -size 1033c ! -executable
```

found "./maybehere07/.file2" .

```
cat ./maybehere07/.file2
```

**Password for next level:** DXjZPULLxYr17uwol01bNLQbtFemEgo7
